

About us

Bruton Knowles was founded in 1862 and we have worked with clients through more than 100 years of change, making it one of the oldest firms of chartered surveyors and property consultants in existence.

We provide expert advice on all aspects of property and we owe our success to being able to manage change, blending established property practice with an often innovative approach to work.

The firm is well established at a local and national level in all the main markets including commercial, public sector, utilities and rural, and also acts for many private clients. The firm currently employs over 150 people in nine regional offices and although we represent clients across the UK, our focus remains on individual client needs.

Our business procedures are designed to ensure the highest quality standards are maintained throughout the business. We are an equal opportunities employer and have met the national standard required to achieve the "Investor In People" award. Bruton Knowles is authorised and regulated by the Financial Services Authority in respect of insurance mediation activities and we are also compliant with ISO 9001:2008 and ISO14001 standards.

Bruton Knowles brings together the strength of independence with integrity and impartiality - values that are vital in an increasingly complex and changing property market.
