PLANNING PRE-APP

Bruton Knowles Planning Team have undertaken a 'Pre-App' with Herefordshire Council. The proposal is to convert the existing agricultural barns to residential dwellings (up to 4 dwellings) and associated works. The pre-application form has stated that it is likely to be undertaken through a Class Q application and the proposed floorspaces will all be under the threshold of Class Q.

The Herefordshire Council Senior Planning Officer concludes that *'Overall, the principle of development for the conversion of the barns is likely to be acceptable should the Structural Survey demonstrate that the barns are structurally sound and capable of bona fide conversion without major reconstruction'*.

As the barns are located in a mix of Flood Zones 1, 2 and 3 the Officer further comments that *'the sequential test and Flood Risk assessment will be crucial as to whether residential development can be supported in this location'*.

Prospective purchasers are advised to undertake their own investigations as to planning prospects and development potential. Copies of both the submission and Pre App Response are available upon request. Please note that the 'pre-app' relates to Lot A only.
