

Carbon Reduction Plan

Supplier name: Bruton Knowles Limited

Publication date: 28th April 2025

Commitment to achieving Net Zero

Bruton Knowles Limited is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions.

Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2024/25

Additional Details relating to the Baseline Emissions calculations.

This is the historic baseline and is our first-year reporting.

Current Emissions Reporting

Our emissions for 2024/25 match our baseline figures, reflecting the beginning of our structured carbon reporting process.

Emissions reduction targets

As part of our ongoing commitment, we are focusing on:

- Eliminating landfill waste through improved recycling practices.
- Promoting paperless offices and reusable materials.
- Encouraging sustainable commuting via cycle-to-work schemes.
- Reducing business travel through digital collaboration tools.
- Expanding flexible and remote working opportunities.

These initiatives are designed to embed a culture of environmental responsibility across every part of our business.

We project that carbon emissions will decrease over the next five years to 933,935.66 kgCO₂e by 2030. This is a reduction of 20%

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard³ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting⁴.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard⁵.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
